

Bech·Bruun

**BB** LEGALTECH

# The law has become digital

---

Legaltech and the use of new technology are tomorrow's efficient solution to performing legal work. At Bech-Bruun, we are proud of being among the country's leading players in the digital legal services market and we have our own in-house legal tech department. We help you save time and resources and assist you in ensuring full compliance with applicable law.

## DPA Service

### **Conduct diligent audits of your organisation's data processors**

Our DPA Service (a .legal product) is your tool to audit your organisation's data processors and ensure they comply with applicable rules. This digitally outsourced solution is continuously kept up to date to match amendments to legislation and to the Danish Data Protection Agency's guidelines, guaranteeing an assessment of your data processors based on relevant parameters.

## Safe<sup>2</sup>Whistle

### **Ensure safe reporting system for whistleblowers**

Safe<sup>2</sup>Whistle is our whistleblowing solution that satisfies all statutory requirements and guarantees maximum security and safety for your employees if they contemplate reporting on irregularities. With Safe<sup>2</sup>Whistle you get a comprehensive solution, leaving it to us to arrange everything from setting up the scheme, including its smooth operation, to ensuring detailed screening of the reports filed.

## SmartDraft

### **Save time when drafting legal documents**

SmartDraft is a digital service that helps you tailor your own legal documents. As a result, you save time and resources on your organisation's document drafting and you are guaranteed a portfolio of uniform, high-quality legal templates that minimise the risk of errors in your document drafting.

## PACTIUS

### **Streamline your contract management and improve your bottom line**

PACTIUS Contract Management (a .legal product) helps you structure and outline your organisation's contract management, offering you a system efficiently supporting the safeguarding of documents and risk management.

## Privacy

### **Get an overview of your personal data processing**

Privacy (a .legal product) is a compliance tool providing you with a one-stop platform to document and administer your organisation's processing of personal data and for your organisation to provide evidence of your general activities to the Danish Data Protection Agency at all times.
